## INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders  
Aerospace Industrial Development Corporation

### Introduction

We have reviewed the accompanying consolidated balance sheets of Aerospace Industrial Development Corporation and its subsidiary (collectively referred to as the "Group") as of March 31, 2026 and 2025 and the related consolidated statements of comprehensive income, changes in equity and cash flows for the three month then ended, and related notes, including a summary of significant accounting policies (collectively referred to as the "consolidated financial statements"). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

### Scope of Review

Except as explained in the basis for qualified conclusion, we conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Basis for Qualified Conclusion

As disclosed in Note 11 to the consolidated financial statements, the financial statements which were used as bases of investments accounted for by the equity method included in the consolidated financial statements referred to in the first paragraph were not reviewed. The carrying amounts of the related investments as of March 31, 2026 and 2025 were NT\$1,330,790 thousand and NT\$1,144,311 thousand, respectively. For the three months ended March 31, 2026 and 2025, the amounts of the related share of profit of associates were NT\$111,438 thousand and NT\$94,089 thousand, respectively.

## Qualified Conclusion

Based on our reviews, except for the adjustments, if any, as might have been determined to be necessary had the financial statements which were used as bases of the investment accounted for using equity method as described in the basis for qualified conclusion been reviewed, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not give a true and fair view of the consolidated financial position of the Group as of March 31, 2026 and 2025, and of its consolidated financial performance and its consolidated cash flows for the three month periods ended March 31, 2026 and 2025 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34 “Interim Financial Reporting” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors’ review report are Jui-Lung Hsu and Shu-Chin Chiang.

## **NOTES TO FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2026 AND 2025**

**(In Thousands of New Taiwan Dollars, Unless Stated Otherwise)**

---

### **1. ORGANIZATION AND OPERATIONS**

Aerospace Industrial Development Corporation (the “Company”) was a state-owned enterprise formed by the Ministry of Economic Affairs on July 1, 1996 from Aero Industry Development Center, Chung-Shan Institute of Science and six other state-owned enterprises. The Company and its Subsidiaries (collectively referred to as the “Group”) mainly engage in business categories as follows: design, manufacture, assembly, testing and maintenance of aircraft, engines, avionics and related components; consulting services and technology transfers of aerospace technology, logistical support and engineering technology management of large-scale projects; engineering and development of software and sales of aerospace products.

In July 2001, the initial public offering of the Company was approved by the Securities and Futures Commission (renamed as Securities and Futures Bureau of the Financial Supervisory Commission (FSC) of the Republic of China (ROC)). On September 13, 2013, in accordance with Rule No. 1020055531, the Company started its privatization process. On August 25, 2014, the Company was listed on the Taiwan Stock Exchange.

The consolidated financial statements are presented in the Company’s functional currency, New Taiwan dollars.

### **2. APPROVAL OF FINANCIAL STATEMENTS**

The consolidated financial statements were approved by the board of directors on April 30, 2026.

### **3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS**

- a. Initial application of the amendments to the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the “IFRS Accounting Standards”) endorsed and issued into effect by the FSC

Except for the following, the initial application of the IFRS Accounting Standards endorsed and issued into effect by the FSC did not have a material impact on the Group’s accounting policies:

Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments”

- 1) The amendments to the application guidance of classification of financial assets

The amendments mainly amend the requirements for the classification of financial assets, including:

- a) If a financial asset contains a contingent feature that could change the timing or amount of contractual cash flows and the contingent event itself does not relate directly to changes in basic lending risks and costs (e.g., whether the debtor achieves a contractually specified reduction in carbon emissions), the financial asset has contractual cash flows that are solely payments of principal and interest on the principal amount outstanding if, and only if,

- In all possible scenarios (before and after the occurrence of a contingent event), the contractual cash flows are solely payments of principal and interest on the principal amount outstanding; and
  - In all possible scenarios, the contractual cash flows would not be significantly different from the contractual cash flows on a financial instrument with identical contractual terms, but without such a contingent feature.
- b) To clarify that a financial asset has non-recourse features if an entity’s ultimate right to receive cash flows is contractually limited to the cash flows generated by specified assets.
- c) To clarify that the characteristics of contractually linked instruments include a prioritization of payments to the holders of financial assets using multiple contractually linked instruments (tranches) established through a waterfall payment structure, resulting in concentrations of credit risk and a disproportionate allocation of cash shortfalls from the underlying pool between the tranches.
- 2) The amendments to the application guidance of derecognition of financial liabilities

The amendments mainly stipulate that a financial liability is derecognized on the settlement date. However, when settling a financial liability in cash using an electronic payment system, the Group can choose to derecognize the financial liability before the settlement date if, and only if, the Group has initiated a payment instruction that resulted in:

- The Group having no practical ability to withdraw, stop or cancel the payment instruction;
- The Group having no practical ability to access the cash to be used for settlement as a result of the payment instruction; and
- The settlement risk associated with the electronic payment system being insignificant.

- b. The IFRS Accounting Standards in issue but not yet endorsed and issued into effect by the FSC

<b>New, Amended and Revised Standards and Interpretations</b>	<b>Effective Date Announced by IASB (Note 1)</b>
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”	To be determined by IASB
IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027 (Note 2)
IFRS 19 “Subsidiaries without Public Accountability: Disclosures” (including the 2025 amendments to IFRS 19)	January 1, 2027
Amendments to IAS 21 “Translation to a Hyperinflationary Presentation Currency”	January 1, 2027

Note 1: Unless stated otherwise, the above IFRS Accounting Standards are effective for annual reporting periods beginning on or after their respective effective dates.

Note 2: On September 25, 2025, the FSC announced that IFRS 18 will take effect starting from January 1, 2028. Domestic entities could elect to apply IFRS 18 for an earlier period after the endorsement of IFRS 18 by the FSC.

## IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 will supersede IAS 1” Presentation of Financial Statements”. The main changes comprise:

- Items of income and expenses included in the statement of profit or loss shall be classified into the operating, investing, financing, income taxes and discontinued operations categories.
- The statement of profit or loss shall present totals and subtotals for operating profit or loss, profit or loss before financing and income taxes and profit or loss.
- Provides guidance to enhance the requirements of aggregation and disaggregation: The Group shall identify the assets, liabilities, equity, income, expenses and cash flows that arise from individual transactions or other events and shall classify and aggregate them into groups based on shared characteristics, so as to result in the presentation in the primary financial statements of line items that have at least one similar characteristic. The Group shall disaggregate items with dissimilar characteristics in the primary financial statements and in the notes. The Group labels items as “other” only if it cannot find a more informative label.
- Disclosures on Management-defined Performance Measures (MPMs): When in public communications outside financial statements and communicating to users of financial statements management’s view of an aspect of the financial performance of the Group as a whole, the Group shall disclose related information about its MPMs in a single note to the financial statements, including the description of such measures, calculations, reconciliations to the subtotal or total specified by IFRS Accounting Standards and the income tax and non-controlling interests effects of related reconciliation items.

In addition, the following consequential amendments have been made to IAS 7 “Statement of Cash Flows”:

- The Group shall use operating profit or loss as the starting point when presenting cash flows from operating activities under the indirect method.
- Interest and dividends received by the Group shall be classified as investing activities, while interest and dividends paid shall be classified as financing activities. However, if, after assessment, the Group has a specific main operating activity, it shall determine how to classify dividends received, interest received and interest paid in the statement of cash flows by referring to how it classifies dividend income, interest income and interest expense in the statement of profit or loss. The total of each of these cash flows shall be classified in a single category in the statement of cash flows.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the impacts of the above amended standards and interpretations on the Group’s financial position and financial performance and will disclose the relevant impact when the assessment is completed.

## **4. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION**

### a. Statement of compliance

These interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34“Interim Financial Reporting” as endorsed and issued into effect by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in a complete set of annual consolidated financial statements.

b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value, and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- 3) Level 3 inputs are unobservable inputs for the asset or liability.

c. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e. its subsidiaries).

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Company.

All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

See Note 10 and Table 5 for the detailed information of subsidiaries (including the percentage of ownership and main business).

d. Other material accounting policies

Except for the following, please refer to the consolidated financial statements for the year ended December 31, 2025.

1) Derecognition of financial liabilities

Financial liabilities are derecognized on the settlement date, which is the date on which the liability is extinguished because the Group's obligations are discharged, cancelled or have expired, or the liability is substantially modified or exchanged for a debt instrument with substantially different terms. The difference between the carrying amount of the financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

2) Retirement benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

3) Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

**5. MATERIAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY**

In the application of the Group's accounting policies, management is required to make judgments, estimations, and assumptions on the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

When developing material accounting estimates, the Group considers the possible impact of US reciprocal tariffs on the cash flow projection, growth rates, discount rates, profitability and other relevant material estimates. The estimates and underlying assumptions are reviewed on an ongoing basis.

The material accounting judgments and key sources of estimation uncertainty of these consolidated financial statements were the same as those applied to the preparation of the consolidated financial statements for the year ended December 31, 2025.

**6. CASH AND CASH EQUIVALENTS**

	<u>\$ 24,868</u>	<u>\$ 23,426</u>	<u>\$ 24,208</u>

These investments in equity instruments are held for medium- to long-term strategic purposes and expect to earn profits from long-term investment. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes.

## 8. NOTES RECEIVABLE AND TRADE RECEIVABLES

	<u>\$ 83,630</u>	<u>\$ 75,691</u>	<u>\$ 127,435</u>

The Group's customers are mostly national defense organizations and international aerospace corporations. The international aerospace corporations' average credit period of sales of goods is 60 to 120 days in average. Trade receivables from government depends on budget allocation. The Group adopted a policy of only dealing with entities that are rated the equivalent of investment grade or higher and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. Credit rating information is obtained from independent rating agencies where available or, if not available, the Group uses other publicly available financial information or its own trading records to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Group uses the lifetime expected loss provision for all trade receivables to providing for expected credit losses. The expected credit losses on trade receivables are estimated using a provision matrix approach considering the historical credit rate of the debtor and an analysis of the debtor's current financial position, adjusted for general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecasted direction of economic conditions at the reporting date. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off a trade receivables when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of notes receivable, trade receivables and overdue receivables (accounted as other non-current assets):

The provision for warranty claims represents the present value of management's best estimate of the future outflow of economic benefits that will be required under the Group's obligations for warranties under contracts for the sale of goods. The estimate had been made on the basis of historical warranty trends and may vary as a result of other events affecting product quality.

Others refer to the obligation of the Group to improve its Taichung Complex groundwater pollution remediation site as ordered by the Environmental Protection Administration. The Group has the obligation to improve this site and recognized the discounted value of the best estimate of the remediation expenses as provisions. Starting from 2025, the Group recognizes the carbon fee provision in accordance with the Regulations Governing the Collection of Carbon Fees and related regulations of the ROC. The carbon fee provision was calculated based on the standard rate.

## 21. RETIREMENT BENEFIT PLANS

Employee benefit expenses in respect of the Group's defined benefit retirement plans were calculated using the actuarially determined pension cost discount rate as of December 31, 2025 and 2024. ### c. Retained earnings and dividend policy

The Company's Articles of Incorporation provide that the annual net income after paying income tax should be used first to make up for prior years' losses, set aside 10% as a legal reserve and appropriate or reverse special reserve. The residual earnings will be allocated by the resolution in the shareholders' meeting. For information about the accrual basis of the compensation of employees and remuneration of directors and supervisors and the actual appropriations, please refer to Note 24 (d).

Profits of the Company may be distributed by way of cash dividend or share dividend. Distribution of profits shall be made preferably by way of cash dividend. However, the ratio of share dividend shall not exceed 50% of total distribution.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's capital surplus. Legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's capital surplus, the excess may be transferred to capital or distributed in cash.

Under Rule No. 1090150022 issued by the FSC and the directive titled "Questions and Answers for Special Reserves Appropriated Following Adoption of IFRS Accounting Standards", the Company should appropriate to or reverse from special reserve.

The appropriations of earnings for 2025 and 2024 were proposed by the board of directors on March 30, 2026 and approved in the shareholders' meetings on May 22, 2025, respectively, were as follows:

	<u>Appropriation of Earnings</u>		<u>Dividends Per Share (NT\$)</u>

3) Valuation techniques and inputs applied for Level 3 fair value measurement

The marketable securities of unlisted shares held by the Group is estimated using the evaluation method when there is no market price reference. The fair value of unlisted shares was evaluated using the asset-based approach.

c. Categories of financial instruments

	<b>March 31, 2026</b>	<b>December 31, 2025</b>	<b>March 31, 2025</b>
<u>Financial assets</u>			
Financial assets at amortized cost	\$ 13,395,268	\$ 17,336,913	\$ 16,554,492
Financial assets at FVTOCI - non-current	24,868	23,426	24,208
<u>Financial liabilities</u>			
Amortized cost	28,773,949	31,046,622	28,822,732

Financial assets at amortized cost comprise cash and cash equivalents, notes receivable, trade receivables, other receivables, overdue receivables, other financial assets and refundable deposits.

Financial liabilities at amortized cost comprise short-term borrowings, short-term bills payable, trade payables, other payables (excluded payables for salaries and bonuses, payables for annual leave and payables for compensation of employees and remuneration of directors), bonds payable (included not later than one year), other financial liabilities (accounted at other current liabilities), long-term borrowings (included not later than one year) and guarantee deposits.

d. Financial risk management objectives and policies

The Group's major financial risk management objectives are to manage the market risk (including currency risk, and interest rate risk), credit risk and liquidity risk of operating activities. The Group minimizes the unfavorable effects of these risks by identification and assessment of the risks and by applying aversion methods to the uncertainties.

The Group's financial targets including its investment plan for property, plant and equipment are laid out in its "Five-Year Business Plan", which were approved by the board of directors. The financial plan includes risk management policies and the division of responsibilities.

The Group's major financial instruments include cash and cash equivalents, trade receivable, short-term borrowings, short-term bills payable, trade payables, bonds payable (included not later than one year) and long-term borrowings (included not later than one year). The financial department coordinates access to domestic financial markets.

1) Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

There had been no change to the Group's exposure to market risks or the manner in which these risks were managed and measured.

Foreign currency risk

The Group minimizes its currency exposure by natural hedging. Foreign currency operation performance is reported to the key management personnel every quarter and the expected foreign currency and operation direction are set for the next quarter.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are set out in Note 32.

### Sensitivity analysis

The Group was mainly exposed to the U.S. dollar. The Group's sensitivity to an increase or decrease of 0.5% in New Taiwan dollars against the relevant foreign currencies means profit before income tax would increased/decreased by \$30,377 thousand and \$31,546 thousand for the three months ended March 31, 2026 and 2025, respectively. The sensitivity rate of 0.5% represents the management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis included only outstanding foreign currency denominated monetary items, with the foreign currency rates at the end of the reporting period adjusted for a 0.5% change.

### Interest rate risk

The Group's interest risk is evaluated in terms of short-term borrowings, short-term bills payable, bonds payable(included not later than one year), long-term borrowings (included not later than one year) and lease liabilities. Borrowing and repayment require budget planning in advance to control the interest risk. Interest rates of short-term loans from different financial organizations are compared and lowest one will be selected.

### Sensitivity analysis

If interest rates had been 25 basis points higher/lower and all other variables were held constant, the Group's pre-tax profit for the three months ended March 31, 2026 and 2025 would decrease/increase by \$4,951 thousand and \$4,438 thousand, respectively, which was mainly attributable to the Group's exposure to interest rates on its variable-rate bank borrowings. A 25 basis point increase or decrease was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

## 2) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The possible financial loss would equal to the carrying amount of the recognized financial assets as stated in the balance sheets. However, the Group is executing forward exchange only with the correspondent financial institutions, and they are creditworthy with no credit risks.

The Group's dealing counterparties are national defence organizations and international aerospace corporations, and they are creditworthy with extreme low risk of bankruptcy. The Group's key management checks the accounts receivable every month, and instructs the project team to collect the past due amounts.

The Group's concentration of credit risk by geographical location was mainly in the United States, which accounted for 52%, 39% and 34% of the total trade receivables as of March 31, 2026, December 31, 2025 and March 31, 2025, respectively.

## 3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the utilization of bank borrowings and ensures compliance with loan covenants.

The Group relies on bank borrowings as a significant source of liquidity. As of March 31, 2026, December 31, 2025 and March 31, 2025, the Group had available unutilized bank loan facilities as set out in (b) below.

a) Liquidity and interest risk rate tables for non-derivative financial liabilities

The following tables details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables had been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The tables included both interest and principal cash flows. Specifically, bank loans with a repayment on demand clause were included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities were based on the agreed repayment dates.

<b>Non-derivative financial liabilities</b>	<b>Less than 1 Year</b>	<b>1 to 5 Year</b>	<b>More than 5 Year</b>
